VC40 - Vehicle charger

Type designation: **VC40**

PN (RN): **7412.100.01**

Designed to charge up to two LP40 batteries in both versions. Waterproof and compact charger design ensures high mechanical strength and easy vehicle installation.

Operating features

• clear indication of operating modes using two LEDs - signaling charging, end of charging and any fault conditions;
• power supplied from 12 VDC or 24 VDC vehicle network,
• optimized charging mode controlled by bus communication between the battery and charger,
• USB interface for connection to a PC, which together with the control program allows the user to use the advanced features of the charger.
