DM13 - Mobile extension set

Type designation: **DM13**
NSN: **6130160028066**
PN (RN): **7005.000.12**
KČN: **0299012008184**

Set consists of DM13 mobile extension and accessories. The unit is used in the 5 W power output RF1305 mobile set. It is placed between the RF13 transceiver and the battery pack. It is connected to the on-board mains with a power supply cable (1050.101.01). The accessory can be used as an independent transceiver power supply from the vehicle or as a charger of the battery pack. After the battery pack is fully charged, automatic switching is secured to trickle charging. When disconnected, the set can be used as portable, supplied from a battery pack. The accessory features a loudspeaker for loud monitoring of received messages. For more details on DM13 mobile extension and other set components see relevant pages of this website.
