NK13 - Trickle charger set

Type designation: **NK13**
NSN: **6130160022128**
PN (RN): **7002.000.01**
KČN: **0068600200031**

Set consists of NK13 trickle charger and accessories. The charger is used for elimination of self-discharging of NiCd battery packs RF13.1 during storage. Charged battery packs are stored close to the trickle charger. They are interconnected with a cable (7002.900.01). One trickle charger can charge up to 30 battery packs at the same time. For more details on NK13 charger and other set components see relevant pages of this website.
