NU13 - Universal charger set

Type designation: **NU13**

PN (RN): **7024.000.02**

Set consists of NU13 universal charger and accessories. The charger features charging, charging with preliminary discharging, the measuring of battery pack capacity and testing of one to eight RF13.1 (NiCd) and the RF13.13 (LiIon) battery packs. Any of the four functions may be independently used in each of the eight locations. These functions are selected by function switch. After the battery pack is connected to the particular location, the selected function gets running. For more details on NU13 charger and other set components see relevant pages of this website.
