RF13.1 - Rechargeable battery pack set

Type designation: **RF13.1**

PN (RN): **7000.000.02**

Set consists of RF13.1 battery pack and documentation. For basic operation no other components are required. RF13.1 is a battery pack for portable RF13 VHF transceiver. It contains a compact quick-charge NiCd batteries pack. The box contains an electronic battery test circuit. Battery voltage is tested by pressing the button and is indicated. The box is mechanically connected to the device fed with one quick release joint. Automatic electric interconnection is provided with the help of rugged spring contacts. The box is made of aluminium casting and its construction is waterproof. For more details see the device page.
